plant pot, the (supports) <u>posts</u> separate each other, and not hollow, the at least one (support) making enough space for reserving fluid in the tray.

2-26. (canceled)

27. (currently amended) A self watering tray for a plant pot, comprising:

a (plate) <u>tray</u>, the (plate) <u>tray</u> having side walls and a bottom wall, the (plate) tray holding fluid; and

at least one leg coupled to the (plate) <u>tray</u>, the at least one leg having two sections, up section and low section, the up section is smaller than the low section, (each of them) <u>the low section</u> having a closed side wall, a shoulder between the up section and the low section supporting the plant pot.

28. (canceled)

29. (currently amended) The tray of claims 1, further comprising a fluid intake lip, the fluid intake lip disposed on the side walls of the (plate) <u>tray</u>, so that fluid can easily be added into the (plate) <u>tray</u> through the fluid intake lip.

30-43. (canceled)

44.(currently amended) The tray of claim 27, wherein the at least one leg filled with a fluid sucking material which provides a fluid conduit capable of sucking fluid from the (plate) <u>tray</u>.

45. (previously presented) The tray of claim 27, wherein a wick is accompanied while the at least one leg can not be filled fluid sucking material.

46. (canceled)

47. (currently amended) The tray of claim 1, further comprising a wick, the wick provides a fluid conduit capable of sucking fluid from the (plate) <u>tray</u>.

48. (previously presnted) The tray of claim 47, further comprising a tube, the wick

insert into the tube.

- 49. (currently amended) The tray of claim 27, further comprising a fluid intake lip, the fluid intake lip disposed on the side walls of the (plate) <u>tray</u>, so that fluid can easily be added into the plate through the fluid intake lip.
- 50. (prreviously presented) The tray of claim 29, wherein the at least one support having second section, the second section extending upwardly from the support.
- 51. (new) The tray of claim 27, further comprising a bottom wall on low section of the at least one leg, at least one hole disposed on/or near the bottom wall for fluid communication in and out of the leg.
- 52. (new) The tray of claim 27, further comprising a pad under the leg for standing more stable on the tray bottom.
- 53. (new) A self watering tray for a plant pot, comprising:

 a tray, the tray having a side wall and a bottom wall, the tray holding fluid; and

at least one leg, the at least one leg formed by at least three wings, the at least one three wing leg coupled to the tray for supports a plant pot.

- 54. (new) The tray of claim 53, wherein a pad disposed under the three wing leg for standing in the tray more stable.
- 55. (new) The tray of claim 53, wherein the three wing leg extending upwardly from the bottom wall of the tray.
- 56. (new) The tray of claim 53, wherein an up section extending upwardly from the three wing leg.
